Times in seconds on ST1 and ST2 shown only where necessary to resolve ties

R. W. Andrews Clerk of Course

KYRLE TRIAL 24th April 1988

Acknowledgements and Notes on Results

1. The Indicative Results posted in the Clubroom at 6.15 have been completely checked through from the marshals original sheets and found fully correct - special thanks are due to Simon Harris and Angela Danby, for fast & accurate work in the first place. These **Provisional Results enclosed** (unless queried and protested as L1.14.7) will become Final on Saturday 7th May. Award winners are shown by **emboldened** numbers and names. The Pepper Pot for Best R&DMSC goes to 36, Ben Higgins.
2. We organisers thank all competitors for their patience and forbearance when the scrutineering & sign-on garage was not unlocked as expected. The fine weather made it possible to "get by" in the Start car park and certainly helped keep "togetherness" but the 'usual processes' took longer and we regret that some crews didn't get their planned breakfast.
3. Section 1, The Dropper, lived right down to its (map) name and is cancelled from all results. No car had climbed it by 10.45 when attempts were limited to 6,7 & 8 - and none of them cleared it thereafter. A queue with a view is all very well, but the Trial had to get on its way... and at least no one fell down the hole!
4. Of 66 competitors and reserves, only 56 (surprisingly) made the start line and 50 are classified as Finishers. In spite of fine weather and dry-ish hills, there were NO clean sheets and even the worthy winner of the **Kyrle Trophy, Mike Chatwin**, lost points in two places. There were also fewer ties for positions than in recent years. We shamelessly attribute this to the 15 psi minimum pressure in driven wheels observed (scrupulously) by Classes 6, 7 & 8. Thanks are due to Russell Joseph, Geoff Davies and Roger Matthews for looking after this - and getting back to serve bar!
5. TEAMS - only three entered; were the rest checking tyre pressures?

Tail Enders	34 / 52 / 57	33 marks
Businessmen	8 / 25 / 28	181 marks
Front, Middle & Back	14 / 21 / 39	...lost their middle!

- so, as in 1987, it pays to team up with Mike Chatwin, as Messrs. Coventry and Dawe will agree!
6. Thank you for bringing a fire extinguisher in every car; we're all glad that none were needed - long may that continue. BUT... Some walkers in the woods, and also a Steward, noted a few competitors were travelling faster than acceptable on forestry roads, and on narrow lanes between sections. This may lose friends for our sport - so hold speed down and keep the 'friendly' image we prize.
7. Found: Some **keys** in Hope Mansell near the start of Section 14, Kiln Lane. Also a black fabric **jacket**, grey lining, make 'San Rosa', in the Clubhouse. Identify them to the Entries Secretary, on (0989-) 64932, and their return could be arranged.
8. The Organisers and the Club are, as ever, indebted to the host of volunteer marshals who came from far and near. We know some would rather have competed but missed out in the draw; to you, a *different* kind of luck next year. To all who helped, including those who saw no cars at all but laid on the vital meal at the end of the day, please accept our sincere thanks for doing the job with patient good humour through a long day. We hope these results remind you of time well spent in the sunshine!

Celia, Lynda, Neil, Peter, Richard

Sorry about the confusion over the change in the entrance gate to Cookshoot Wood, but I understand you found a spot on Cuddleigh Bank! Thankyou.
