CAMEL VALE MOTOR CLUB LIMITED

CAMEL CLASSIC TRIAL 1990

Please find enclosed results to our event.

After days of rain and looking at nicely greased sections, the immediately proceeding days produced no rain at all. Fortunately for us, with the pressure of car tyres on it, the Mother Earth produced stored reserves of the wet stuff and where there wasn't solid rock sections became interestingly slippery enough.

As usual, early cars (especially Class 3 ones) found Start Lines too tough, but those that suffered most would have to agree that later cars had a better go of things, so next year study our entry selection process and get your entry in early!

A big 'Thank you' to Frank Varco for organising the marshals and 'thank you' to all those of you who responded, especially the people who covered two sections in one day - you were out almost as long as we were! We are glad you were rewarded with such good weather.

Also many thanks to all the landowners whose generosity we rely on each year.
