WOOLBRIDGE MOTOR CLUB LTD.

Hardy Classic Trial

Sunday 6th November 1994

Route Card

Held under the General Regulations of the RAC Motor Sports Association Ltd (incorporating the provisions of the International Sporting Code of the FIA), the supplementary regulations and any written instructions the organising club may issue. RACMSA Permit No. 37259. DoE Authorisation No. 22397 No. 6.

Please drive carefully and slowly through all the small villages on the route, and respect the landowners property - remember we rely on their goodwill to stage these events. This event is routed along and / or across public rights of way. Competitors must exercise caution and reduce their speed accordingly near other path users. Be especially careful near horses. Slow down, stop, and switch off your engine if necessary. Follow the Country Code, close any gates you pass through, do not carry excessive mud onto the highway, and do not leave litter at sections or along the route.

Special Notes

Meerhay - this section, also used on the MCC Exeter Trial in January, continues to be available only through the goodwill generated by endless PR. Please comply with notes in the route, keep noise and inconvenience to others to an absolute minimum, and take care below the section start in case drainage works have started.

Green Lane - The continued use of this section is dependent on the cooperation of the farmer. Please allow any farm vehicles or animals to pass unhindered. Open cars beware overgrown hedges - they too remain a condition of use.

Jack's Lane - you are reminded that this area is a rallying blackspot. Please be very quiet and courteous on the approach to this section, and do not block narrow lanes.

Time schedule - The time schedule is not onerous, being designed merely to keep the event grouped together. With a shorter route mileage than previous years, we have reduced the average speed, and built in a delay factor at each section. To find your due time at a time control, add your start number to the car zero time shown, e.g. Car 12 should arrive at Time Control 1 at 12.17 pm. You may arrive at the time controls up to 5 minutes early or late without penalty, unless otherwise stated in this route card. Times of arrival for car zero are given for each section, for information only.

Details of sections with minimum tyre pressures and/or restarts will be confirmed on the official notice board at signing on. Procedures for restarts, special tests, and failures are given at the end of this route card.

Sections will be marked from 12 to 1 in normal trials formats. Loss of award will result from abuse of private property, exceeding speed limits or other police action, walking sections, not being ready to attempt sections when required by marshals, or failure to adhere to the specified route. Although many of the sections will be familiar to regular competitors, the order in which they are tackled has been reversed this year, so please follow this route card carefully. (This means Hell Lane is now the last section, not the first, so all we can say is have fun on the "Road to Hell")
