Please find attached the final results for the 120th Anniversary Dick Peachey 3 Day Trial. Fails are in red, so a DNS or R on a section (Did not Stop or Restart) were done correctly if they aren't in red.S is stop, but you'll see a few lower case 's' which means no-one in the class cleaned the section, so it doesn't count. On a special test (+1L) means a line fault (Over ran a line, stopped short etc), (+1C) means a cone fault, so touched a marker post. M means Missed the section. RB means Rolled Back, F means Footed. On a section where no bikes clean the section, those that made it to the top with footing get a clean, those who stopped don't. Calculations assess performance on a daily basis, then give an overall medal score.
